**“I want college to understand I’m a carer.”**

## Being a young adult carer can have a big impact on the things that are important to growing up

- It can affect a young person’s health, social life and self confidence – over 50% reported a mental health problem.
- Many struggle to juggle their education, working life and caring role which can cause pressure and stress.
- Recent research on young adult carers who were no longer in education showed their highest qualifications were GCSEs grade D–G.
- 29% had dropped out of college/university because of their caring role. This is four times greater than the national average for degree courses.

## What might a young adult carer do?

- Practical tasks, such as cooking, housework and shopping.
- Physical care, such as helping someone out of bed.
- Emotional support.
- Personal care, such as helping someone dress or go to the toilet.
- Managing the family budget and collecting prescriptions.
- Helping to give someone their medication.
- Helping someone communicate.

## Young adult carers should have:

- Support that gives them the same opportunities as their friends such as being able to:
  - Go to school, college or university and complete their studies.
  - Get a job.
  - Have a social life and be independent.
  - Have support for the person they care for.
